

OUR TEAM

KenCrest Employment Services specializes in skill development and job search programs for people with disabilities. Through mobilizing resources and integrating individuals into competitive employment, we offer an empowering, customized development opportunity preparing individuals of all skill levels and experiences living with an intellectual disability, mental illness, or physical disability. Our Employment Services offer the following Employer Benefits to meet your hiring needs.

OPPORTUNITIES GROW HERE

Since 1984, KenCrest has worked in Pennsylvania communities to build employer partnerships, identify paid employment opportunities, and create new, customized paid positions. KenCrest matches job candidates with their careers based on their skills and preferences for employment. Our employment goals focus on providing each individual with the type of employment they want and will enjoy. Our trained and certified staff's objective is to assist individuals in finding careers they love and supporting their success. Our methodology has resulted in excellent customer satisfaction and an average job retention rate of seven years! Employment is available in Berks, Chester, Montgomery and Philadelphia Counties in Pa.

Career Development:

- Accountability to company, manager, and themselves
- Real-world training, lessening the on-the-job learning curve
- Transitioning from support of job coaches to independence

Why Hire KenCrest Individuals?

- Be a "change agent" to include individuals with disabilities in the workforce
- Create a culture of understanding and acceptance that extends beyond the workplace
- Set an example for other companies to follow

Few Of Our Employers

- Phoenixville Hospital
- Shire Pharmaceutical
- Giant Food Stores
- Shannondell
- Sodexo
- Aramark
- WAWA
- Philadelphia School District
- GlaxoSmithKline
- Frederick Living
- Pottstown Memorial Medical Center
- Freedom Nissan
- Normandy Farm

Inspired Workforce

There is a qualitative difference between employees who are there to just do the job and those who are inspired to do the job well and impact our community. In 2017, KenCrest, in conjunction with the Office of Vocational Rehabilitation and Montgomery County Intermediate Unit, hosted the first group of Project SEARCH students in the State of PA to work in "Big Pharma." It has successfully been implemented in partnership with GlaxoSmith-Kline in Collegeville, PA. KenCrest individuals are motivated by their aspiration to work toward independence, their company's mission, and a job well done...not just a paycheck. The impact they make on their teams is contagious.
