

Greater Independence through Voice

KenCrest is collaborating with **Voiceltt** to participate in a community beta for their new speech recognition technology! **Voiceltt** is designed to further empower people with speech impairment or non-standard and dysarthric speech. The **Voiceltt** application helps to enable real-time communication, and is compatible with smart home appliances, other assistive technologies, and even smart speakers like Siri and Amazon's Alexa! *KenCrest is looking to partner with members of our community to test the app at no cost during an upcoming trial period.*

Requirements:

- **Must be 16 years or older**
- **Have a speech impairment or non-standard speech**
- **Have access to an Apple iOS phone or tablet**
- **Live independently, with family, or in a non-group home setting**
