

# Lollipop Ghosts

Supplies: Dum-Dum lollipops, small elastic bands, tissues, ribbon, black marker

## Directions:

Take the quarter piece of tissue and put it in the center of the full sized tissue. This will help to hide the color of the lollipop underneath the tissue. Two layers worked much better to hide the color. Put the lollipop in the middle.

Bunch up the tissue over the lollipop and stretch the elastic over it to hold it all in place.

Use a brush tip Sharpie to make the eyes.

Since it's tissue, the ink definitely bleeds, so I recommend pressing (briefly) straight on with the tip of the marker for each of the eyes.
