

Tech Spotlight

App: Talk to Me App

Type: AAC/Communication

Price: FREE!

Available on: iOS devices

Talk for Me is a text to speech app. It is a great option for someone who can spell, type, or read words. The interface allows the communicator to type out their thoughts, and the app can “speak” for the communicator in a variety of voices. The communicator can quickly control speech volume, and there is an optional *Auto Speech Function* that allows every word or letter to be spoken as it’s entered. Custom phrases can be created and accessed with a tap. The app is not only functional and user friendly, it’s free!

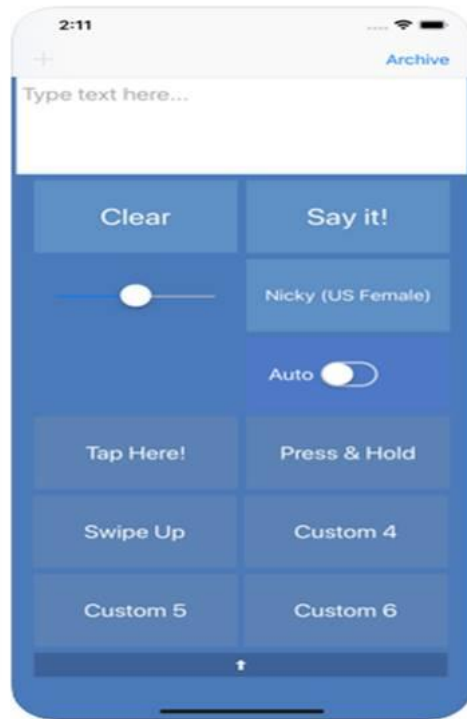

Talk For Me - Text to Speech

Communication Made Simple
